Maxthon Browser is a [powerful](#) tabbed browser built for all users. Besides basic browsing functionality, Maxthon Browser provides a rich set of features to improve your surfing experience. It can open multiple Web pages in just one window.

And it only takes a little system resources when surfing with the integrated user interface. It also supports special plug-ins and IE extensions to let you have an enjoyable surfing experience.

Features:

- Online Favorites Service: Access your Favorites content anywhere with Maxthon Online Favorites Service. The encrypted stand-alone Favorites file format can protect your privacy on a shared [computer](#).
- Tabbed Browsing: All the web pages are arranged as tabs inside main window to ease your navigation.
- Mouse Gestures: Hold right mouse button and perform the gestures to access common features such as Back, Forward, Refresh and Close Tab.

- Super Drag&Drop: Type the keywords in Address Bar then press Enter to perform a search. Or [simply](#) drag & drop a keyword with your mouse.
- Ad Hunter: Ad Hunter can efficiently clean up the web pages by stopping Popup Windows and removing Ad Content Blocks.
- Fully [Customizable](#): Plugins. Skins. Filter Packs. Multi-language
