Native Trails Expands Copper Sink Line with Two High-Shine Finishes: Polished Copper and Polished Nickel

Embracing the sensation of shine, new finishes add glamour to kitchens and baths; available February 2017

SAN LUIS OBISPO, CALIF. – Native Trails, the eco-chic company renowned for its luxurious artisan-made kitchen, bath, and lifestyle products, has expanded its innovative line of copper sinks with two new and distinct finishes. Polished Copper and Polished Nickel finishes offer expanded design possibilities for kitchen, bath, and entertaining spaces, and give these rooms a chance to shine.

High-shine statement pieces such as sinks lead the home style of gleaming finishes that pack a visual punch.

Polished Copper is a luxe shade with hints of rose gold, hand polished for a dazzling shine, while **Polished Nickel** is a warm-toned silver color, hand polished to a mirror shine. Both finishes unite beauty with practicality.

“Sinks are often the starting point for design choices in the kitchen and bath,” said Naomi Neilson Howard, Founder and CEO of Native Trails. “Native Trails copper sinks become the focal point of any room due to their dynamic texture and sophisticated design. Instead of a utilitarian must-have, our Polished Copper and Polished Nickel finishes add another element of personalization to make a space unique.”

All Native Trails copper sinks are forged of 100 percent, high-quality recycled copper. Copper has been used for centuries in kitchens and baths throughout the world. Studies also prove that copper itself kills harmful bacteria, a true benefit in the kitchen and bath.

Native Trails’ new Polished Copper and Polished Nickel offerings include:

Farmhouse 30 in Polished Copper.
